Employment

Health Officer- Capacity Building and Integration

Nov 2022 - Present

International Rescue Committee, INGO, Beirut

- Contribute to the analysis and evaluation of capacity building needs, and develop accordingly a capacity building plan .
- Deliver trainings to the IRC staff, partners and community stakeholders, based on the program's strategy and any outbreak or other public health priorities in emergencies.
- Conduct regular coaching and mentoring sessions.
- In coordination with M&E Department, develop tools to assess the impact of the capacity building and integrated activities with other sectors.
- Create new tools for any project, including rapid needs assessments, pre- and post-training evaluation tools, and feedback forms.
- Support the recruitment of Outreach Volunteers (OVs) and contribute to building their capacity through tailored trainings and mentorship.
- Facilitate integration with other departments to ensure a coordinated approach to health programming and optimize the impact of cross-sectoral initiatives.

Psychiatric registered nurse in the Mobile Crisis Team (Part time)

Aug 2021 - Nov 2022

Embrace NGO, Beirut

- Collaborate with a multi-disciplinary mobile team to intervene during emergency mental health crisis through a 24/7 mobile unit.
- Provide appropriate care/support, ED use and hospitalization.
- Coordinate with medical and behavioral health services to give medications if necessary, based on psychiatrist's instructions.
- Crisis planning and follow up.

Registered Nurse

Jul 2018 - Sep 2022

Saint Georges Hospital University Medical Center, Beirut

Demonstrated versatility and clinical proficiency by delivering high-quality nursing care across multiple departments, including Emergency Room, COVID-19 Center, and Psychiatry Unit.

Emergency Room Nurse (April 2022 – September 2022)

- Delivered prompt and efficient care to patients in critical conditions, utilizing advanced clinical skills to perform comprehensive assessments, prioritize interventions, and ensure adherence to evidence-based protocols.
- Collaborated with interdisciplinary teams to develop individualized care plans, providing patient and family education to support optimal health outcomes.
