

Dear Médecins du Monde Team,

My name is Greyci Gamoneda and I am writing to express my profound interest in becoming a volunteer with Médecins du Monde. I have always admired the remarkable work your organization does to provide medical care to the most vulnerable populations around the world. It is my sincere wish to contribute to your mission and be part of the impactful work that Médecins du Monde carries out.

I hold a medical degree from Mexico, which has given me firsthand insight into the significant impact that organizations like Médecins du Monde can make. Growing up and receiving my education in a resource-limited setting has instilled in me a deep understanding of the challenges faced by underserved communities and the critical importance of accessible healthcare.

During my time at university, I was actively involved in organizing medical missions, where I gained valuable experience in both logistical planning and direct patient care. These missions not only honed my administrative skills but also reinforced my commitment to making a difference in the lives of those in need. Additionally, I have experience in unofficial medical translations, which I believe can be an asset to your team given the diverse linguistic environments in which you operate.

I am eager to leverage my skills and experiences to contribute to your organization's efforts in providing comprehensive and compassionate healthcare. Volunteering with Médecins du Monde represents an incredible opportunity for me to give back to the global community and Luxembourgish community.

Thank you for considering my application. I am looking forward to the possibility of contributing to Médecins du Monde.

Best regards,  
Greyci Eunice Gamoneda Escobar
